

HPL (High Pressure Laminate)

Corporate social responsibility

Cradle to Cradle Certified® Bronze V4.0

A world first: our entire HPL range meets the stringent, internationally recognised C2C standards in the following areas:

- ✓ Material health
- ✓ Product circularity
- ✓ Water and soil stewardship
- ✓ Clean air & climate protection
- ✓ Social fairness

Environmental impact

Sustainable forestry

Available on request, depending on the certification of our stocks

Carbon footprint

from raw material to **finished product***:
1.26 kg eq. CO₂/m²

from raw material to **end of life***:
2.36 kg eq. CO₂/m²

Take-back programme

Life cycle = 50 years*
And then?

Recover
UNILIN TAKE BACK PROGRAM

Unilin collects end-of-life HPL (glued on chipboard/MDF).

Health

Material health

Cradle to Cradle® compliant
Fully screened and compliant with Restricted Substances List
